

A Division of Road Machinery & Supplies Co.

Now Serving Minnesota & Iowa

After serving the construction industry in Texas for over 20 years, Road Machinery & Supplies Company is bringing its underground safety, trenching, shoring, and auger drilling resources north to serve our customers in the Minnesota and Iowa markets.

We can provide:

Underground Safety

We provide trench boxes, hydraulic shoring, beam and plate, slide rail systems, and related accessories through Road Machinery & Supplies Co. and U.S. Shoring & Equipment Co. We also offer Engineered Trench Safety solutions, developed in close partnership with registered professional engineers to deliver site-specific, compliant trench safety plans.

Confined Space Safety

Gas monitors, tripods, pipe lasers, harnesses and more can be found at Road Machinery & Supplies Co. We can also calibrate and test several manufacturers monitors.

About Us

We provide top-quality trench safety and underground boring equipment backed by responsive support and reliable solutions. Our team is committed to helping customers work safely and efficiently while investing in our people and fostering a strong, supportive culture that drives long-term success.

Training

Road Machinery & Supplies Co. and U.S. Shoring and Equipment Co. can provide your business with the safety and compliance training needed to satisfy annual requirements.

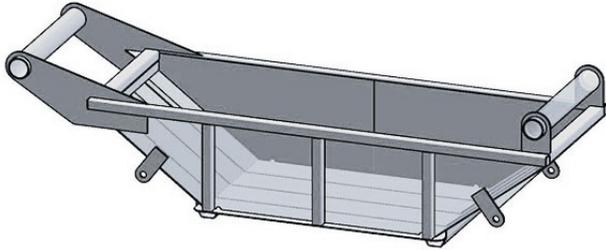

Auger Boring

U.S. Shoring and Equipment Co. is the largest distributor of Barbco boring machines in the United States. Barbco is a premier U.S.-based manufacturer specializing in custom-engineered auger boring solutions.
